VOL. IX. NO. 175.

SANTA ANA, CALIFORNIA, WEDNESDAY EVENING, JUNE 24, 1914.

50 CENTS PER MONTH

STARVING BY MILLION IN CHINA

Loss of Life in Floods of West River District Must Run High Into Thousands

MANY FOREIGNERS ARE FEARED IN DISASTER

Epidemics Break Out—Plague and Typhus Rage—Famine Sure to Follow

HONG KONG, June 24.—Relief is being rushed up the West River today to sufferers from the flood recently sweeping the West River Valley. A million or more people are reported today as starving or homeless as result of the flood. The loss of life can hardly be estimated but it must run high into the thousands.

Rescuers have been especially instructed to look out for foreigners, of whom there are many in the flooded district, particularly at Wuchow, which is a treaty port.

Epidemics are already breaking out. Small pox is prevalent and there is a fearful increase in cases of dysentery and typhoid. Typhus is also prevalent. Plague is reported and probably exists. It seems certain that famine will follow the flood.

Thirty Lost in Storm
FRIEDRICHSHAVE, Germany, June 24.—Thirty fishermen are missing following a storm that raged last night on Lake Constance.

FOUND DYING AT WEALTHY WIDOW'S APARTMENT DOOR

STAMFORD, Conn., June 24.—Waldo Ballou, a wealthy city councilman and society man, was found dying at the door of the apartment of Mrs. Helen Angel, a rich widow. He died an hour later. His head was crushed with a heavy instrument. Bloody barefoot prints led to the woman's door, giving evidence that the body had been dragged through the hall to the door. When arrested, Mrs. Angel denied any knowledge of the deed. Ballou's bloody hat was found in her room. The woman is a society leader here and in New Haven. Ballou's attention to her were well known.

AVIATOR NILES IN UPSIDE DOWN FLYING OVER BROADWAY

NEW YORK, June 24.—New Yorkers saw an aeroplane fly upside down over Broadway for the first time yesterday afternoon. Aviator Charles S. Niles did it in his new Moisant monoplane in the course of thirty-five minutes of daredevil flying around Governor's Island which thoroughly earned him his nickname of "Do-anything" Niles.

He made four sweeping circuits around Governor's Island, looped the loop seven times, sailed upside down several times, turned wing over wing, spiraled this way and that and did stunts in the air which Alfred J. Moisant said no one had ever done before.

AIRCRAFT OVERTURNS; 1 MAN DEAD; 1 MAY DIE

BERLIN, Germany, June 24.—Lieut. Kolbe of the army aviation corps was killed, and Capt. Ruff, his passenger, was probably fatally hurt, when their aeroplane overturned above Schwerin.

AVIATION ENDURANCE RECORDS ARE BROKEN

BERLIN, June 24.—Aviator Bass today completed an eight-hour uninterrupted aeroplane flight, breaking all endurance records.

W. G. SHARP TO BE NEW AMBASSADOR TO FRANCE

President Wilson has named William G. Sharp, representative in Congress from Elyria, O., for ambassador to France. Mr. Sharp's name has been sent to the Senate, where it will soon be acted on. If he is confirmed he will take the place of Myron T. Herrick, former governor of Ohio, who has long represented the United States at the French capital. While Mr. Sharp has not shone as one of the brilliant men of the House of Representatives, he has been one of the solid men on the Democratic side.

Bulletins of News

THE WEATHER

Fair tonight and Thursday; westerly winds.

Oxford Honors Ambassador Page

LONDON, June 24.—Oxford University today conferred honorary degrees on the American ambassador, Walter Hines Page; Lord Bryce Dechmont; and Richard Strauss, the composer.

Lambis Resigns as Head of Philadelphia Mint

WASHINGTON, June 24.—John H. Lambis, superintendent of the mint at Philadelphia, resigned yesterday. He had held the position since 1902.

Wealthy San Francisco Widow Killed by Street Car

SAN FRANCISCO, June 24.—Mrs. Jennie Lewis, 60, wealthy resident of Reno, was killed when struck by a street car here today.

NOAH, NOT ADAM, IS EDEN GARDEN HERO, NEW FLOOD STORY

LONDON, June 24.—What is claimed to be the original account from which the Bible story of the flood was taken has been discovered by Dr. Langdon, professor of Assyriology at Oxford, among a number of early Babylonian tablets unearthed at Nippur.

The tablet, inscribed with the Genesis story of the forty days' rain, also contains a reference to the fall of man brought about by his eating a certain fruit, this being the first reference to the fall found in Babylonian literature.

In this narrative it is Noah and not Adam, who, tempted, falls. The Tree of Knowledge is identified with Cassia, the most important medicinal plant of antiquity.

TOMBSTONE CONSOLIDATED MAY BE COPPER PRODUCERS

BISBEE, Ariz., June 24.—Phelps Dodge Copper Company has purchased the Tombstone Consolidated mines for \$500,000 at a receiver's sale. The properties are said to have produced \$25,000,000 in the silver days. Now they will be developed for copper.

26 ARE INJURED IN DAKOTA TORNADO

Some Will Succumb—Town Badly Damaged—Tornado Blew on Into Minnesota.

WIRES PROSTRATED AND DETAILS NOT AVAILABLE

Milwaukee Hurricane-Swept Today—Gale Leveled Trees and Smashed Windows

WATERTOWN, S. D., June 24.—Further investigation of last night's tornado showed twenty people injured, six probably fatally. Reports filtering from the surrounding country indicates widespread damage. Many were hurt.

Fifty First Reported Hurt

MINNEAPOLIS, June 24.—Two are known dead with two missing and many injured in a tornado that struck Lake Calhoun, Minneapolis and vicinity. Dozens were injured and \$100,000 damage was done to property. The storm swept Lake Calhoun when 300 canoes were on the water. Many of these were found capsized and it is feared many people were drowned. The Dakotas and southwestern Minnesota were also storm swept. At Albert Lea three people were injured severely by falling trees. At St. Cloud, Rochester and Red Wing other people were hurt and there was heavy property damage. The crops suffered severely.

WATERTOWN, S. D., June 24.—Of fifty people injured in a tornado that raged here last night, physicians said today that several will succumb. The town was badly damaged.

The storm left a trail of wreckage through a thickly populated residence section of the city, many houses being wholly wrecked, while others were unroofed and moved from foundations.

The tornado swept on into Minnesota, where much damage is rumored, but the wires being prostrated, few details were available.

Hurricane Sweeps Milwaukee

MILWAUKEE, June 24.—This city was swept by a hurricane this morning. Hundreds of chimneys were blown down, windows were smashed and fences and trees were leveled. A report is current that La Crosse was struck by the tornado but it has been denied by officials of the Northwestern railroad, which alone had communication there. Telegraph wires are prostrated.

ARMY OF POLICE GUARD ENGLAND'S KING AND QUEEN

NOTTINGHAM, Eng., June 24.—An army of Scotland Yard detectives and plain clothes police surrounded King George and Queen Mary today when they inspected the lace and hosiery factories here. A demonstration by suffragettes was feared. Their Majesties listened to addresses of welcome in the park, and later, after lunch with Lord Littleton. Tonight they will be the guests of the Duke and Duchess of Portland at Welbeck Abbey. Tomorrow they will go to Mansfield.

Now is the time to invest in HUNTINGTON BEACH. Call at room 116 East Fourth street, and inquire. S. W. Pearce, sole representative, Santa Ana.

The Beet Sugar Crop

Official figures show that the beet sugar crop of the United States for the campaign beginning in the fall of 1913 was the largest on record. It amounted to 733,401 short tons, which was 40,805 in excess of the large yield of 1912. There were 71 factories in operation in 1913-1914, or two less than during the preceding campaign, while the average length of the campaign was 85 days in 1913-1914, practically the same as in 1912-1913. The beets used in the factories in 1913-1914 amounted to 5,659,462 tons, and were grown upon 580,066 acres. The average value of the beets per ton was \$5.34, and the total amount received by the farmers for their product amounted to \$30,222,000. The total production of all sugar exceeded 1,700,000 tons, beet sugar 71 per cent, and cane 29 per cent, average yearly consumption 4,000,000 tons.

THREE PER CENT MONEY STARTS TALK

Local Financiers Think There is "Nigger in the Woodpile"

ROBBINS POINTS OUT SITUATION

Craddick of Orange Has His Doubts of Wholesomeness of It

"3 PER CENT LOANS—On good security. Why pay more? You can have money at above rate, long time. H. Box 12."

The above advertisement was received without examination by a clerk at the Register counter last week.

"Three per cent money?" That question aroused considerable interest among people who know that seven per cent money is hard to get. Local bankers say that under present financial conditions it is impossible, and there is bound to be a "nigger in the woodpile" in such a proposition.

A Register representative got into communication with the man who inserted the advertisement. The man proved to be Prof. Sage, who at one time was a teacher of languages in the University of California and later for three years in the University of Tokyo. Prof. Sage, by reason of physical inability, was unable to secure a permanent teaching position, and settling at Pomona he took private pupils in some of the sixteen languages that he can teach. He says that he owed money on a house, and he heard of the National Mercantile Co. of Vancouver, Can., which he was told loaned money at three per cent. He says that he became interested, to the extent of taking a loan and then becoming an agent. He has worked at San Bernardino, and a few days ago came to Santa Ana. He stated that he has been an agent for Pomona and Orange county, and that he expects to establish an office here. Whatever "nigger in the woodpile" there may be, Prof. Sage is evidently sincere and innocent of whatever "nigger" is to be located.

Prof. Sage presented a thirty-page folder containing information concerning the three per cent proposition. O. M. Robbins, secretary of the Home Mutual Building and Loan Association, and an expert in building and loan matters, studied the pamphlet, and wrote the following for the Register:

Mr. Editor:—Having noticed that one of your advertisers was offering to loan money at three per cent, I asked for information regarding the plan of the loans. I was given a circular which expressly stated under the heading

"SPECIAL NOTICE" "The company will be bound by and responsible for only such statements as are contained in its contract; no agent of this company, general, provincial, state agent or officer of this company has special or any authority to bind the company by any promise, representations or other statements not contained in the contract and the application thereof."

That is, the company refuses to be bound by statements printed in its own circulars, as said circulars are not the contract or the application thereof. Will you kindly note that "no agent of this company, general, provincial, state agent or officer of this company has special or any authority to bind the company by any promise, representations or other statements not contained in the contract or application thereof."

Why issue circulars if they have no authority, if the company is not willing to stand by the statements contained therein?

Yet the circulars are given out as outlining the plans of the company, giving information and making statements with apparent authority, but should a contract holder assert that the treatment of his individual case was not in accordance with the promises of the company in their circulars and other printed matter the answer would be like the reply of Shylock.

A casual reading would show that the company is really a beneficiary organization, but examine more closely.

Page 3. "When the loan is ready under the terms of the contract, the initial payment, and the full amount of all monthly payments paid the company, and in addition thereto One Hundred and Fifty (\$150) Dollars in cash for each \$1000 carried."

This statement is followed by an illustration showing as "For Example" Total payments for 15 months \$150.00 Cash bonus paid by the company 150.00

Amount paid contract holder ..\$300.00 A net profit of 150.00 On an investment of \$150.00 and (CONTINUED ON PAGE TWO)

STATE'S FINANCES ARE SOUND, SAYS NEYLAN

California Has Deposits Of \$11,000,000 With Surplus Of \$3,000,000---Is On Real Business Footing

SAN FRANCISCO, June 24.—John Francis Neylan, chairman of the State Board of Control, speaking at a luncheon of the San Francisco Chamber of Commerce Tuesday, June 23, on the business conditions of the state, said in part:

"If the reputable business men of San Francisco and the other cities of California will give some little attention to what is going on in their government, the disgraceful conditions which formerly prevailed can never return. If the business men of the state will demand accurate information concerning what is going on in their government and will not allow themselves to be deluded by faked figures and hypocritical howls of calamity, the problem of maintaining the state's business on the decent plane it is on today will be solved to a large degree."

"Within the last three years California has marketed more than \$10,000,000 worth of 4 per cent bonds for public improvements. During that period gilt-edged industrials at 5 1/2 and 6 per cent could not be sold. Today the State of California is standing behind her financial institutions with deposits aggregating more than \$11,000,000 and has safely stowed away a surplus of \$3,000,000 to meet possible curtailment of revenue by the abolition of the poll tax and the corporation license tax which will be submitted to the people for their decision in November. Yet despite these facts we constantly read slanders concerning the state's financial condition put forward by interests, which to gain a political advantage are willing to hurt the credit of the state."

"The records of the state controller's office show that the average increase in appropriation prior to 1910 in this state was 20.7 per cent. Those same records show that the average

increase each two years since 1910 has been 15.6 per cent, the smallest in the history of the state.

"No man can tell you what became of that 20.7 per cent increase for the reason that there was never an audit of the state's affairs and books and records were destroyed to cover up dishonestly. Every dollar expended by the state since 1910 is accounted for regularly."

"The story of the mismanagement of this state's finances prior to 1910 is too well known to need repetition at this time. Let us see instead what has been done to put the state's business on the same plane of efficiency as maintains in private corporations. Today the state's contracts are honestly awarded and the reputable business firms of California are competing for the business; today on every non-contract purchase for the state at least three reputable firms must have a chance to bid; today everything sold to the state is tested by the Pure Food and Drug Laboratory of the University of California, or by the experts of the Engineering Department; today claims against the state are paid in an average of fifteen days; today there is installed in all departments and institutions a uniform system of accounting and they are regularly audited by traveling auditors from the Board of Control; today everything the state owns is being inventoried for obvious reasons; today the state makes its appropriations on a budget basis instead of the pork-barrel system. Today California's institutions are modernized with buildings and equipment and her departments are efficiently managed. All of this has occurred with the smallest increase in appropriations in the history of the state."

"It would seem that the reputable business men of California should at least take an interest in the things accomplished."

GOTHARD ASHORE-- PASSENGERS SAFE

LONDON, June 24.—The steamer Gothard of the Red Star line, which is under charter to the Canadian line for two months and which was on its way from Montreal to Rotterdam, went ashore yesterday on the rocks about two miles northeast of Bishop's Rock, Scilly islands, and will probably be a total loss. Several steamers rushed to the assistance and the passengers and crew were all rescued. There were thirty-four passengers and they were the first to be taken off.

The Gothard, sailing from Montreal June 12, struck during a dense fog.

DURAZZO TAKEN TUESDAY IN AN UN-VERIFIED REPORT

VIENNA, June 24.—Efforts are being made today to verify reports that Albanian rebels captured Durazzo on Tuesday. No word had been received at a late hour today. At last reports the rebels were pressing King William's troops, which were offering heroic resistance.

WASHINGTON MEMORIAL TABLET IS DEDICATED

NEW BRUNSWICK, N. J., June 24.—With impressive ceremonies, city officials and local members of the Sons of the American Revolution and other patriotic societies joined today in dedicating the tablet on the site where George Washington stopped here on his way to take command of the Continental army at Cambridge, Mass., 139 years ago. Three members of the Massachusetts chapter of the Sons of the American Revolution left Philadelphia two days ago to cover the route taken by Washington. A tablet will be unveiled at Elizabeth tomorrow.

The dead: Ernest L. Noy, age 31, freight clerk in the Great Northern office and a bystander. Fatally wounded—Peter Bruno, age 51, miner, aligned with the Moyer forces, shot by mistake. Slightly wounded—Chris Kramer of Los Angeles, wounded in abdomen. The trouble was precipitated presumably by deputies of Sheriff Tim Driscoll opening fire upon the crowd when insurgent miners were threatening to break up a meeting of the old union called by President Charles H. Moyer of the Western Federation of Miners, in an effort to bring about a reconciliation between the two warring factions of the miners.

PRESIDENT CELEBRATES WEDDING ANNIVERSARY

WASHINGTON, June 24.—The president and Mrs. Wilson today informally celebrated their twenty-ninth wedding anniversary. Many telegrams of congratulation were received at the White House. The marriage took place at the home of Mrs. Wilson's grandfather, the Rev. I. S. K. Axson, pastor of the Independent Presbyterian Church at Savannah, Ga., June 24, 1885.

Apricot Growers Outside Association to Organize

Apricot growers not in the Orange County Dried Fruit Association will hold a meeting Saturday night at the K. P. hall, Tustin, to discuss a proposal to take steps which will be of mutual benefit to the growers. The meeting has already been held. At Saturday evening's meeting it is believed that these apricot men will organize on a protective and co-operative basis. Among those interested in the movement are Sherman Stevens, C. E. Ut, John Dunstan, J. E. Luther, Ira E. Leck, A. H. Leck, Miles Holderman, B. H. Wollenberg, Henry Ebel, E. L. Higgins, Perry Lewis, William Bowman, W. D. Bowman, F. W. Suddaby, Andrew Cock, Ernest Cock, Ted Cock and Thomas Cock.

Just what plan of organization of growers outside the association will be adopted is to be talked over at the meeting Saturday night.

VILLA WIRES BATTLE IS NEAR

Planned Attk on Zacatecas Within Hour—Confident of Winning Victory

REPAIR RAILROADS TO HALT FEDERAL RETREAT

Rumor That Zacatecas Was Taken Yesterday Comes From Tampico Source

JUAREZ, June 24.—Zara de la Garza, General Villa's confidential agent here, announced this afternoon that Villa had wired him the following message from Pimienta: "I will start a general assault on Zacatecas within one hour. I am confident of victory."

Pimienta lies five miles directly north of Zacatecas; nine miles by rail.

RUMOR THAT ZECATECAS FELL ON JUNE NINETEENTH

WASHINGTON, June 24.—A report from Tampico based on high authority was to the effect that the Constitutionalists took Zacatecas on June 19 after a hard fight. It was stated that San Luis Potosi is expected to fall soon, and that a battle is imminent at Queretaro.

On the theory that the federals will soon be driven from San Luis Potosi, according to the same Tampico source, the rebels at Tampico are repairing the railroad westward from there to facilitate their movements to a point between the threatened city and the capital with the purpose of cutting off the Huertista retreat.

With a similar object in view, it is said that General Natera is trying to reach Aguas Calientes. Many trainloads of rebels are reported as hurrying to Monterey to join in the pursuit of the federals. The dispatch also said that the Zapatistas are again menacing Mexico City.

Carranza Army Formed

JUAREZ, June 24.—Despite the fact that extensive rebel reverses have been reported, General Carranza is about to begin extensive military operations on his own account, independent of the campaign which Villa is about to open in the vicinity of Zacatecas. This is indicated by private advices received by American and rebel government officials yesterday with the opening battle at Zacatecas believed to be less than forty-eight hours away.

Information which reaches here is to the effect that 15,000 men under General Pablo Gonzales and General Jacinto Trevino, whose resignation as Carranza's chief of staff has not been verified, will start south from Saltillo within two days in a desperate effort to take San Luis Potosi before Villa's army can get in there.

Peace Offers to Carranza

NEW ORLEANS, June 24.—Juan Uruqui is here today on route to Saltillo carrying to Gen. Carranza the proposals of the Washington administration for the settlement of the Mexican troubles. He is being sent to Gen. Carranza over the heads of his agents at Washington who disapproved of them. It is reported Uruqui last night wired the proposals to Carranza who sweepingly rejected them. Uruqui is reported to have hopes that he may induce Carranza to reconsider his decision.

LA HABRA SCHOOL DISTRICT VOTED \$38,000 BONDS

LA HABRA, June 24.—Public spirit was manifested by the citizens of La Habra district Monday in their election to vote bonds for a new school building. The proposal to issue bonds in the sum of \$38,000 was carried by a vote of 122 to 14. A new structure of modern design, with ample accommodations for the rapidly-increasing population of the valley, will be erected upon the site occupied by the old building.

—Buy wall paper now at about half price. We are closing out our large stock. Chandler, 510 N. Main St.

SERBIA'S KING GIVES UP THRONE TO SON

BELGRADE, Serbia, June 24.—King Peter abdicated today in favor of the Crown Prince. Ill health was given as the reason for abdication.

TO ADVERTISE AS HE WALKS

Fullerton Walker to Distribute Literature on His 5,000-Mile Hike

FULLERTON, June 24.—W. E. Barnard, who returned to Fullerton recently after a journey of several months over mountain and desert, will resume his travels this week in the interest of the Chamber of Commerce. In spite of the hardships endured, his physical condition is greatly improved and he hopes that he will be restored to health.
He proposes to cover a distance of 5,000 miles in the next twelve or fourteen months. His route will be through the Imperial Valley and Arizona, New Mexico and Texas to San Antonio, thence north to his former home at Mitchell, S. D., passing through Oklahoma, Kansas, Nebraska and a corner of Iowa. On the return trip he will make for Cheyenne, Wyo., and from there will follow the Lincoln highway route through Utah, Nevada and across the Sierras to San Francisco, coming down by the coast route to Fullerton, after stopping to see the big fair.
Mr. Barnard will distribute literature advertising Fullerton and Orange county. He has a complete outfit for a trip of this kind, including three burros and camp equipment, tent, bed roll, cooking utensils, canteens and knapsack.

GRANDMA NEVER LET HER HAIR GET GRAY

Kept Her Locks Dark, Thick, Glossy, With Sage Tea and Sulphur

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.
Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger.—Advertisement.

THREE PER CENT MONEY STARTS TALK

(CONTINUED FROM PAGE ONE)

for a time of from one month on the last payment to 15 months on the first payment. This is to show how much the investor can make. No legitimate business can pay 100 per cent profit on an investment of seven and one-half months. Only a lottery can pay such profits to a favored few. This institution gives no guarantee when a loan will be made to you should you invest, except the statement "when a loan is ready."
"HOW WE DO IT"—Page 7. "When your turn is reached for a loan, and you do not desire to avail yourself of the loan privilege, there will always be many others anxious to secure it, and they will gladly pay for your matured right to a loan, upon the basis of the above figures."

Read that carefully. The borrower is anxious to pay \$150.00 bonus for a loan, and will gladly pay that amount. Is that all he has to pay for the privilege of getting a loan? Read on page 17 that a source of income is "8. Profits on the sale of loans."
Now take the example on the inside of the back cover. Then you will notice that on a loan of \$100.00 you get \$100.00 of your own money and "Amount added by the company, \$900.00." For which you will make a note to the company and furnish a trust deed or mortgage for the \$900.00 and pay \$7.00 each month with interest until the \$900.00 is paid. Do you get the \$900.00 in cash? You will remember that you were ANXIOUS to get the loan and gladly paid some investor \$150.00 for the privilege of the loan; that reduces your cash received to \$750.00. But hold, there is still another reduction: the "Profits on the sale of loans," which must be paid to the company, which, as it is mentioned as a source of income, should be at least \$25.00; thus you see that your loan of \$100.00 dwindles to \$100.00 of your own money, a bonus to be paid to the company and to an investor, and \$725 cash, for which you give a note for \$900 drawing interest at 3 per cent. After you have paid your monthly payments for the first year of \$9.25, making \$111.00 for the year, and your monthly payments for the second year of \$9.04, making \$108.48, and one month of the third year at \$8.83, a total of \$228.31, you will still owe a balance of \$275.00 on the principal, which is the entire amount of the cash paid and loaned to you.

In other words it has taken you 25 months and payments totaling \$228.31 to pay up the bonus you must give to obtain your loan. These figures are taken from the examples given by the company, with the exception of the \$25.00, which I have estimated as the profit made by the company for making the loan. The exacting of a bonus for obtaining a loan was the custom some 30 years ago, but has been dropped by all reputable companies, as unjust to the borrower. When one wants to borrow \$1000 he is compelled to put up good security, and he should not be compelled to pay in for an indefinite time, with no certainty of getting a loan until he pays a bonus larger than anyone else wanting a loan. He wants the \$1000 borrowed, and not from \$100 to \$500 of his own money, an expense of \$175 and the balance in cash from the loaner.

What is to hinder an official from taking one contract in every 100 contracts for \$1000, and drawing his number each month. One hundred contracts at \$10 monthly payment would give just \$1000 to loan each month. The officials could pay in \$10 and take out a bonus of \$150 each month on "bonuses paid for loans." They could do this on each 100 loans and the income to the officials would be even better than borrowing money at "three percent."

Investors and borrowers should always bear this in mind: There is no money in any such institution except the money paid in by the investors and borrowers, less the expense of running the institution. Such institutions should be so run that each stockholder has equal rights and equal privileges. Every time one stockholder gets more than a fair earning to his investment, some other stockholder must get less than a fair earning to his investment. No man can invest \$150 in fifteen monthly payments of \$10 each and receive \$150 profit on such investment without being favored over the other investors. In such institutions, that can give such favors, who would be apt to receive the favors, you, a stranger, or some one connected with those able to grant such favors?

Three per cent money is a good thing to let alone, unless you are on the inside, if one looks at it from a financial investment; and a good thing to let alone whether on the inside or outside, from a moral standpoint.

I have also taken the figures as given and applied them to the average loan made by this company and find that it would cost the borrower, according to the statements made in the circular, about \$50 or \$75 more than would cost should the loan be made with any reputable building and loan association of Southern California. This I will demonstrate in a later communication if desired.

O. M. ROBBINS.
The ad. attracted the attention of S. M. Craddick of Orange, and he sent the following communication to the Register:

Editor Register:—There are many good people nowadays who would like very much to borrow some money, give good security and pay 7 per cent for the use of it. And it certainly would be a God-send if these people could get the money they need so badly and have to pay only three per cent. I notice an advertisement in the Register of some one offering money at "three per cent—why pay more?" Now this may be a legitimate and honest proposition, or perhaps some honest local dealer is innocently acting as cat's paw for some higher up rascal.
At any rate, it puts me so forcibly in mind of a transaction which occurred at Orange recently, that I believe it my duty to warn intending borrowers to be careful when they undertake to secure three per cent mon-

ey from a stranger. The party must be a stranger, for people we know are not fools enough to offer money for three per cent. A stranger whose supposed name is J. C. Bell, with offices at San Jose, Cal., and claiming to represent several millions of money, or rather a Canadian syndicate with several millions back of it, wrote an innocent sort of a letter to a business man of Orange, asking him to take the local agency of this loan concern. The printed stationery, the pamphlet descriptive of their methods and rules—in fact, everything pertaining to the matter, seemed square and fair. The firm had so much money on hands that it would be glad to distribute a few good loans about Orange at five per cent.

The proposition was placed before several business men of Orange, and it was finally agreed that it was a square deal. So the party who had been asked to act as agent, made application to the San Jose firm for a \$3500 loan, complying strictly and technically with the requirements of this "millions to loan" concern, by sending the certificate of title and \$10 to cover cost of investigation. Accidentally it was ascertained within a day or two afterwards that the whole game was a fraud, except the title and the \$10—they were real and genuine. By the time the Orange detective reached San Jose, Mr. J. C. Bell had taken a vacation for his health. But said detective recovered the identical title and \$10 check sent from Orange, but left on the table 100 to 200 letters containing checks from other poor borrowers, who will never again hear of their titles nor \$10. Much of the office literature offered money at three per cent, while for towns the size of Orange, they seemed to think five per cent to be all right. Thousands in Los Angeles have been fleeced by these villains in this self-same way.

Let borrowers beware. It is extremely difficult to obtain money at seven or eight per cent. I think this three or five per cent money is a snare and a delusion.

BISHOP'S CASH STORE, 115 East Fourth Street

MILLER'S BOOKS ARE FOUND STRAIGHT

Widow of Suicide Has Been Located by Friends of the Deceased

A. C. Stockbridge telephoned to A. R. Rowley of the Titus Stock Remedy Company yesterday afternoon and said that the wife of Arthur G. Miller of Santa Ana, who committed suicide in Los Angeles Monday, had been located in Colorado.

Stockbridge said that he went to luncheon with Mr. Miller about noon Monday and that Miller told him that he would meet him at 5 o'clock. Before that time Miller took his own life.

Rowley said this morning that a meeting of the directors of the Titus company would be held Monday evening. The books of the company will be examined at that time. Rowley repeated his statement of yesterday that there was practically no chance of there being a shortage in Miller's accounts. A brief examination of the company's cash book and other records has convinced Rowley that Miller's books are straight.

No additional facts that might have a bearing on what prompted Miller to suicide have come to light.

Miller's funeral will be held in Los Angeles by Masons, unless instructions contrary to that plan are received from Mrs. Miller.

ODD QUERIES UNDER COMPENSATION LAW

SAN FRANCISCO, June 25.—California's industrial accident board has been called on lately to answer several peculiar questions in connection with the comparatively new workmen's compensation law. Some of them, with their answers, were as follows:

Is the common-law wife of a workman, killed at his work, entitled to compensation? No, because the board does not wish to encourage illicit relations between the sexes, but his illegitimate child is.

Is lead poisoning an industrial accident? No; it is an occupational disease.

Is compensation due to the relatives of a man killed defending his

employer's store against a marauding Mexican band from across the border? Yes, that is an industrial accident.

Should a man suffering from a dislocated shoulder due to what was admittedly an industrial accident, receive additional compensation because his convalescence was retarded by the breaking of a pitcher on his head in a fight he engaged in? No, of course not.

Don't knock HUNTINGTON BEACH. It's your biggest neighbor. INVESTIGATE. Time is ripe NOW. Getting busier all the time. S. W. Pearce, sole representative, 116 East Fourth street, Santa Ana.

TO "SERVE"

is our desire.

And we believe we will be able to serve you well on the clothes proposition.

Here you'll find all the exclusive novelties of the season.

And all the "old stand by" blue serges with a touch of differentness tailored into them that make them distinctly individual.

Special values in fine suits at \$15.00, \$20.00 and \$25.00.

Hill, Carden & Company

112 West Fourth St.

BOARD OF SUPERVISORS

CONTRACT LET FOR NEW ROAD

Strip of Highway at West Orange Accepted by the County

On the recommendation of the County Highway Commission the Board of Supervisors yesterday let a contract for the paving of the road between Day City and Los Alamitos. The successful bidder was the Conner Construction Co., and the bid was \$23,887.18.

Road Accepted

On the recommendation of the commission, the supervisors accepted the strip of county highway on West Chapman street, Orange, between Main street and Batavia street. The contractor was required by Chief Engineer Finley and the commission to repair defective portions of the concrete abase. Recently crushed rock and oil surfacing was put on.

Fixing the Curb

G. R. Reyburn, F. C. Wilkinson, J. C. McClain, W. D. Junkin and Nate Dunsdon of Garden Grove, petitioned the supervisors to be allowed to place a cement curb seven feet from the property line on the east side of Euclid avenue between Ocean avenue and Acacia avenue and on one side of Ocean from Euclid to Walnut, Garden Grove. The petition was granted.

For the Exhibits

The auditor was instructed to draw a warrant for \$300 for maintaining an exhibit at the Santa Ana Chamber of Commerce rooms for the county.

Annual Report

Auditor Lester was given permission to get out an annual statistical report and to public 1000 copies of the report.

E. E. Jahraus, S. M. Dungan and County Surveyor McBride were appointed viewers of the J. J. Thomas road.

ASSERTS HOUSING IN SCOTLAND IS NATION'S DISGRACE

GLASGOW, Scotland, June 24.—Sir George McCrae, the chairman of the Scottish local government board, speaking at a town-planning conference at Glasgow, said that the condition of housing in Scotland was a standing disgrace to any nation.

He had visited most parts of Scotland, and he felt a sense of shame for his own country. Even in the smaller towns there was a lamentable state of congestion. In the Shetland Isles, in Lerwick, he found people huddled together in a most unsatisfactory man-

ner. Hitherto the housing acts in Scotland had been a failure. The local authorities had been a little lax, but during the last five years they had tackled the problem vigorously, and with fairly satisfactory results. They were on the eve of a great development.

BROUGHTER HEAD OF NORTHERN BAPTISTS OF UNITED STATES

LOS ANGELES, June 24.—The Rev. J. Whitcomb Brougner, D. D., pastor of the Temple Baptist Church, South Olive and Fifth street, was unanimously elected president of the Northern Baptist Association yesterday by the delegates of that organization at the annual convention, which is in progress at Boston, Mass.

The news of Dr. Brougner's election was received here last night and the many friends of the prominent clergyman expressed their appreciation at hearing the welcome news.

Today the delegates at the convention will join in celebrating the centenary of the birth of Adoniram Judson.

QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take Tablespoonful of Salts if Back Hurts or Bladder Bothers

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervousness and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Advertisement.

FINE SCENIC RIDE TO LAGUNA BEACH

Auto Stage Goes by Way of San Juan Capistrano—College Marine Laboratory

LAGUNA BEACH, June 24.—On account of the closing of the Laguna Canyon road for paving Peacock's Laguna and Arch Beach stage will make only one round trip a day. The stage leaves the White Cross drug store, Santa Ana, at 4:15 p. m., via San Juan Capistrano, for Laguna and Arch Beach. This gives a delightful ten-mile trip along one of the most beautiful auto scenic routes in the world. People autoing to Laguna Beach should use the road via San Juan Capistrano (which is in good condition) as the Aliso Canyon road is almost impassable for automobile traveling.

The Pomona College Marine Laboratory has already about twenty students enrolled and more coming.

Several new cottages and one new business building are in the course of construction in picturesque Laguna.

Mr. Fowler recently launched a fine power boat which was built by him. It took sixteen head of mules to tow it to the ocean from his house where it was constructed. The launching was watched by a large crowd.

LAGUNA AUTO STAGE
Peacock's Laguna stage leaves the White Cross Drug Store, Santa Ana, daily for Laguna Beach at 4:15 p. m.

AUSPICIOUS AND SIGNIFICANT

The Register notes with pleasure the candidacy of Lyman M. King, editor of the Redlands Facts, for State Senator from the district composed of San Bernardino and Inyo counties. Mr. King is a Progressive Republican—that is, he is a Republican who believes in and practices the principles of the Progressive party. Moreover he is a man of fine character and personality, and Progressives and Republicans alike—indeed voters of all parties—will do themselves honor and their country service by supporting him.

Fortunately for Mr. King and for San Bernardino and Inyo counties—indeed, for the whole state—Mr. King's candidacy seems to be acceptable to both Progressives and Republicans, and it is altogether probable that the Progressives will make no nomination against him. Mr. King's paper, the Redlands Daily Facts, is one of the many Republican papers in this state which, while remaining loyal to the G. O. P., have not failed to recognize and acknowledge the good work of Gov. Johnson's administration.

It is a pity that men of King's political and personal status cannot be secured as candidates for all legislative offices, both state and national. If the Progressives and Republicans could get together on legislative and congressional candidates it would insure properly protective (tariff) and truly conservative legislation. The Democrats would have no chance of success at the polls, and the election of Progressive Republicans or Republican Progressives would protect us against freak legislation as well as against reactionary law-making. While much of the so-called "freak" legislation was in reality the very best of law-making, and while some of the so-called reactionary legislation was nothing worse than safe and sane conservatism, no one will deny that harmful extremes were reached in both directions.

There is a movement in Ohio for the enactment of a redlight abatement and injunction law in that state, to be fashioned after the Iowa statute.

IN THE GOOD OLD DAYS

For the benefit of those earnest souls, the uplifters and students of sociology, who hold to the theory that the United States has fallen upon evil times and that things were better done in the good old days, the Board of Trade of Hartford, Conn., has unearthed from the files of The Courant of that city the following news paragraph, which appeared on Sept. 11, 1854:

"Four Irishmen died yesterday of cholera in a tenement house on Morgan street near the bridge. It was found during the day that in a closet on the first floor under the stairs, one of the tenants was keeping a sow with her litter of pigs. The authorities, we think, should see to this."

That was not quite 60 years ago, about the time, perhaps, when New York was seriously exercised over the question whether pigs should be allowed to roam the streets at their own sweet will.

The Bulletin of the Board of Trade adds this pertinent comment on the tragedy of Morgan street:

"And in 1854 this, as news, was only worth a paragraph. Nobody seemed to be excited over the pigs or the cholera. Should the same thing happen today it would be called for a full-page illustrated story in the newspapers, a mass meeting of social uplifters, the grilling of the Board of Health by both the newspapers and the uplifters, and several vacancies in the ranks of the sanitary inspectors."

In a decision handed down by the Court of General Sessions at Trenton, New Jersey, the sale of intoxicating liquors by clubs to club members was declared illegal.

TEETH AND MORALS

Charles D. Hilles has turned his attention to philanthropy and made the interesting discovery that what the bad boy needs is not a birch rod, but a toothbrush.

He is the president of the New York Juvenile Association. He says that 91 per cent of the delinquent boys received by his society suffer from bad teeth, and after two years of dentistry and tooth-brushing they are turned out 90 per cent good.

The bad boy is a sick boy, Mr. Hilles says. Sixty-five per cent of the boys received by his association are

anemic, due to poor food and irregular habits of living. A much larger percentage have bad teeth, and bad teeth mean bad digestion, hence poor health and mental torpidity or moral obliquity.

The popular impression that the heart is the seat of character is a myth. The Orientals are far nearer the truth who locate the seat of morals in the liver. We call a depressed disposition black liver, and in recent years doctors have been developing a close relation between the liver and morals. But Mr. Hilles is disposed to regard the stomach as the source of virtue and vice. With bad teeth there cannot be a good stomach, and with a bad stomach there is a dull mind and a wayward or vicious disposition. The birch rod was thrown away many years ago. Since then we have been without a disciplinary instrument. Mr. Hilles proposes the toothbrush as its substitute. The boy who doesn't learn his lesson and the boy who puts tacks in the teacher's chair must go off and brush their teeth.

"While I am not a teetotaler, I am a prohibitionist," declares Harvey W. Wiley, former chief chemist of the United States government, in the Sunday School Times. "I am firmly convinced that the evils produced by alcohol so far outweigh any of its supposed advantages as to leave but one logical conclusion, namely, the prohibition of the manufacture of alcohol for any but industrial purposes."

Editorial Edibles

It takes only a few hours and a suffragette to burn down an English church 400 years old.

Truly clothes do help the man. Spain wouldn't have been half so glad to see the Colonel if he had worn khaki.

American correspondent John Reed depicts Villa as a great and good man, and his opinion is backed up by Senora Villa and with less enthusiasm by Secretary Bryan.

Most men could be fairly happy if they could forget all the mean things they know about themselves.

Occasionally a woman piles so much hair on the back of her head that it tilts her chin up.

If the average voter knew as much about public life as he does of the batting averages of the baseball players, this would be a wonderful country.

Now that Shamrock IV has been successfully christened and launched, there's nothing left, apparently, but to have it successfully beaten.

By keeping his whistle wet and his powder dry, Huerta hopes for the best.

The Iowa man who ate 213 spring onions on a wager offers a new problem in quarantine regulations.

There are eleven colors, four weights and four grades to choose from. 35 years of experience go into every pair. Ask to see "Holeproof" and look for that name on the toe; also the trademark shown and the signature. "Holeproof" are the original guaranteed hose. No other kind can begin to compare with them. See the "Holeproof" assortment today. 6 pairs cost \$1.50 up to \$3.00, according to weight and finish.

Holeproof Hosiery
FOR MEN, WOMEN AND CHILDREN

W. A. HUFF

WHAT IS DOING ABROAD

(By Ed. L. Keen, London Correspondent United Press)

LONDON, June 14.—"A marriage has been arranged and will shortly take place between Mr. 96,437,242 Schedule K, of Ratcliffe-on-the-Wreake, son of the late Mr. and Mrs. 87,643,922 Class X, and Alicia Estelle 47,392,641 Form A-1, daughter of Mr. 92,476,547 and the Hon. Mrs. 92,476,547, and grand-daughter of the late Earl of 13."—or "We regret to announce the death of Mr. 176,932 File Q, which occurred last night at the residence of his parents, Mr. and Mrs. 64,955,271 ditto, after a brief illness."

With the adoption of the card index system of registration by number of every inhabitant of Great Britain, seriously advocated before the Royal Statistical Society by Walter Hazell, former member of Parliament, such would become the style of items in the department of the British press devoted to social and biobituary intelligence. Under Hazell's scheme, which the society is now giving careful consideration, no one could be born, married, have children, be divorced or arrested, go mad, die, or be buried without producing his so-called life card and having the event duly recorded thereon. Every card with its duplicate filed in Somerset House, London, would bear cross references giving the names and numbers of the holder's parents and children. Aside from the obvious advantage to the police in identifying criminals, Hazell claims that his system would greatly assist in tracing lost heirs, would facilitate legislation in regard to estates, would enable a woman to ascertain in a moment whether her intended husband has a wife living, would prevent marriage under false names, would forestall the marriage of minors who falsify their ages, and correct countless other present-day evils. By utilizing the government's present organization of births for the registration of births, marriages and deaths, Hazell figures that the entire cost would be not more than \$70,000 a year.

Ulster is indulging in a hearty laugh at the expense of Lt. Gen. Sir Arthur Paget, commander-in-chief of His Majesty's forces in Ireland, and Maj. Gen. Sir Cecil Macready, the new military governor of the district of Belfast. These eminent warriors were sent to the Orange capital to prevent if possible the distribution of arms among "King" Carson's Volunteers. Although the anti-home rulers succeeded in landing a whole shipload of arms and ammunition and scattering them throughout the province between days while the two generals were on the job, neither had been able to nose out a single rifle or case of cartridges until one day Gen. Paget, while golfing at Newcastle happened to drop into a local shop to buy some golf balls and surprised the shopkeeper in the act of fixing brass numbers on half a dozen rifles.

"What does this mean?" inquired the general, whose identity was unknown.

JUNE CONTRIBUTIONS TO COMMERCE EXHIBIT

Mrs. F. E. Beltz, East Santa Clara avenue—Large Valencia orange, 18 inches in circumference.

Prof. B. F. Beswick—Blackberry branch loaded with berries.

W. A. Crane, South Main street, from ranch near Wintersburg—Tulle roots showing what peat land is composed of. The land has paid 7 per cent net on a valuation of \$1000 per acre.

A. N. Cox, North Main street—Cluster of 16 lemons from three-year-old tree.

A. S. Davis, R. F. D. 1—The gladiolus grower of Orange county has twice brought in large bouquet of gladiolus from his nursery.

Mrs. D. W. Hicks, city—Three large bouquets of sweet peas.

C. D. Hays, 408 East Pine street—Three large black lilies, sometimes called African lilies.

Mrs. Chas. F. Kneen, city—Two calla lilies grown together.

J. E. Liebig—Cluster of 14 oranges from ranch near Tustin.

Mrs. Mullinix, North Main street—Chrysanthemum sunflowers; seed from these may be had free at the Chamber of Commerce.

Mrs. Geo. Peters—Sweet peas.

Mrs. Potter—West Fourth street—California poppies.

W. J. Righter, Tustin—Branch of 33 Valencia oranges.

G. B. Shattuck—Sugar beet from San Joaquin ranch.

T. J. Williams, Newhope district—Three immense heads of lettuce and five large radishes.

N. J. Warner—Cluster of five oranges (True Cluster).

Geo. J. Brown, Tustin—White sage honey for exhibit.

known to the shopkeeper. "Oh, this is nothing at all," was the reply. "You ought to have been here last week. The shop was full of 'em then." As he could gather no evidence that the guns had been smuggled, the general was obliged to let the shopkeeper continue unmolested with his work. The same day Gen. Macready, also in civilian attire, hired a motor-car for a tour of inspection in the country. Noticing that the interior of the vehicle was badly scratched and showed other signs of recent wear and tear, he inquired the reason of the chauffeur. "Oh, the rifle did that," was the explanation. "We hauled an unusually big load of them last night, sir."

The Prince of Wales will be twenty years old on Tuesday June 23 and a year later he will become the richest heir apparent in Europe, with the possible exception of the Czarvitch—and he is still unengaged. When he reaches his majority and comes into full control of the revenues from real estate and invested funds which are now being administered in trust for him, young Edward will have an annual income of more than a million dollars. A large part of this will be from the Duchy of Cornwall, which was settled upon him at the time of his father's accession. Under the thrifty administration of Lord Revelstoke the rental of this estate has increased since King Edward's death from \$100,000 a year to \$180,000, and the accumulated revenues that will be turned over to His Royal Highness next year will be in the neighborhood of \$250,000. In addition most of the annual allowance of \$250,000 granted the prince when George took the throne (to be increased to \$350,000 when he reaches his majority) has been saved and carefully invested.

Frugal Queen Mary has seen to it that young Wales should spend not a cent more than sufficient to maintain his position with the proper dignity. There are many undergraduates at Oxford whose expenditures far exceed that of the heir to the throne. The limit set by Queen Mary is said to have been \$10,000 a year.

The Prince will also come into a large personal legacy left him by King Edward, when he is 21. His total income will be about a third more than that of King George when he was heir apparent.

POLITICAL CARDS

(Primary Election Aug. 25, 1914)

HANS V. WEISEL of Anaheim, announces his candidacy for re-election to the legislature (ASSEMBLYMAN) of California as representative of the Assembly District composed of Orange County, subject to the decision of the Progressive voters at the August primary election.

MET AT BIRCH PARK

W.C.T.U. Enjoyed Final Meeting of Season Out of Doors; Excellent Program

The usual custom of the W.C.T.U. is to take a vacation during the summer months, not holding regular meetings. The last meeting of the season was held yesterday at Birch Park and was one of unusual interest, with a large attendance. Mrs. Lea Warren, president of the union, presided. Mrs. Dickinson, formerly a missionary in China, led very appropriate and impressive devotional services. A newly organized L.T.L., with a roster of 24, was later formed by Mrs. Ludwig, Mrs. Potter and Mrs. King. The boys and girls each wore red or blue caps and carried "California Dry" pennants. They gave an exercise, songs and their rally cry. S. M. Davis gave a splendid address on the present status of the dry campaign. A temperance recitation was given by another band of little temperance workers under Mrs. A. H. Nickell. A number of those who have been making the dry campaign canvass and distributing literature, spoke as to the success of the canvass. All spoke very encouragingly and stated that they find very few people who will vote wet.

During the business session the union voted to send a night telegram to Senator John D. Works and Representative William Kettner asking them to cast their vote for national constitutional prohibition.

The seventh grade of the Intermediate school recently wrote essays giving five reasons why California should go dry. These essays are very neat and well written. Prizes of \$2 for the first, \$1 for the second, and 50 cents for the third best essay will be awarded by the local W.C.T.U. Mrs. W. H. Thomas, Mrs. E. H. Norman and Mrs. J. T. Raitt were appointed to judge the essays and award the prizes.

It was announced that Mrs. Eva C. Wheeler, one of America's most talented elocutionists, will reach here July 8 to tour Orange county. Her Santa Ana dates will be Saturday and Sunday, July 11 and 12. Arrangements will be made for a meeting of all women's clubs and organizations on Saturday afternoon at the city hall, with a big mass meeting to be held on Sunday afternoon. Announcements of delegates will be made later and all are asked to watch for the dates and further notices.

At the close of yesterday's program all enjoyed a picnic lunch in the beautiful park. It was announced that the first meeting of the fall season will be held on Sept. 8, at Birch Park when K. L. Keech will deliver an address on the Dry Campaign.

To Tour the World
Under the direction of D. F. Robertson, manager steamship agency, California Savings Bank, Los Angeles, forty prominent Californians will leave September 27 on a six months' cruise around the world.

They will sail on the steamship Minnesota, 37,500 tons, proceeding to Japan, Korea, Manchuria, China, the Philippines, Malay Peninsula, India, Ceylon, Arabia, Egypt and Africa, and later will tour Europe by automobile.

Among those in the party are Mr. and Mrs. James Chalmers and Mr. and Mrs. Augustus Voghte, booked from Santa Ana.

We are proud of our past four years work, but we have plans that are surely going to make our future work doubly successful.

We are not going to divulge these plans now, but want you to watch our announcements about the middle of August.

The Conservatory is open all summer and the ten per cent discounts are in effect for all this week only. Enroll now!

504½ N. Main St. Sunset 214.

DEVELOPING AND FINISHING

ROWLEY DRUG CO., C. S. Kelley, Mgr., Cor. 4th and Main St.

LECTURE GIVEN LAST NIGHT ON "CHRISTIAN SCIENCE"

The Speaker Was Bicknell Young of
Church's Board of Lectureship

Bicknell Young, a member of the board of lectureship of the Christian Science Church of Boston, lectured at the Grand Opera House last night on Christian Science. He was introduced by Earl S. Kittle of Santa Ana, who said in part:

"My heart is filled with gratitude for the countless blessings that have come into my life through Christian Science."

"Forty years ago the Science of Christian Healing was revealed to Mary Baker Eddy, the founder and discoverer of Christian Science. A few years later she gave to the world the Christian Science text book, 'Science and Health with Key to the Scriptures.' From time to time she gave other works for publication. Throughout her writings she teaches her followers that God is All in All, and that Divine Love always has met, and always will meet every human need."

Mr. Young said: Ordinary systems of education accept the evidence of the senses as to man's being and destiny, and in so doing tend to perpetuate the destructive conditions of human experience. Ordinarily accepted religious views also coincide with such teaching, for they inculcate the idea that when evil has finally overcome a human being and destroyed him, then he will be immortal. None of these systems hold out the hope that there will ever be any present evidence of the destruction of evil and the triumph of the human being, but on the contrary all agree in accepting the evidence of the senses which indicate the destruction of man and the triumph of evil.

Now whatever may be thought of Christian Science from the standpoint of old education, it has the unquestionable advantage of being logical and consistent. It shows unmistakably that a human being, however much of a sinner he may be, needs to be redeemed rather than destroyed, and that it is the proper business of both science and religion to heal him of his

disease and to redeem him from his sins so unmistakably that both the healing and the redemption shall appear.

The True Available

There has never been anything true that was not available to mankind or would not have been if they had been enough awake to perceive that it was true. Truth has always existed.

What then is the Christ that is to save us, if we are all to be saved through Christ? It is the Christ that was with Jesus, the Christ which enabled him to save others, and enabled the disciples to save others. From what? From something that God had afflicted them with? Materiality, limitation, fears, diseases, sin, death? No, it was to save them from that which God never gave them at all. That which God had given them they did not need to be saved from—that which human ignorance allotted to the human race is what we all need to be saved from, and Christ comes and ever will come in thought through power, through ideas that reveal God, to save us from those things until those things shall be no more, and step by step awakening more in the image of good, we shall find eventually that we are not human but naturally divine; and that is salvation.

Christian Science Explains

Nobody has been asked to believe in Christian Science, and nobody ever will be asked to believe in it, for Christian Science does not advocate a proselyting process, but explains divine Principle. I should no more think of urging a person to believe in Christian Science than I should think of asking him to believe in the multiplication table. Neither one nor the other is in the realm of belief. We are not giving Christian Science lectures for the purpose of asking people to believe in it; we are giving Christian Science lectures because we want to help mankind, and we want to help mankind because we want to help ourselves, and have realized that the best way to help ourselves is to help others. No human being can be selfish and ever put off mortality. For one to attain immortality, which is the natural heritage that God has provided for all, we shall have to be unselfish. Jesus did not voice a mere religious admonition but a scientific necessity when he gave the rule, "Thou shalt love thy neighbor as thyself." He also said, "Deny thyself and follow me."

God and Power One

It takes a great deal of instruction to convince the average human being that the word "God" does not mean something remote or inaccessible. Now we can think certain ideas which reveal God. We have seen that here. These ideas reveal power because God and power are one. They are God with us, and therefore power with us. We can think of our bodies, and as a matter of fact we think of them a great deal too much. Nevertheless, so long as that is our tendency, it ought not to be difficult for us to recognize that the true thought of what God is may affect our bodies, since some kind of thought is doing something to our bodies all the time. We walk because of mind; and talk and think, and wink our eyes, because of mind, and do everything else we are doing because of mind, and we do absolutely nothing because of matter, for matter cannot think nor talk nor walk by itself when thought is absent.

Influence of Thought

To recognize the nature and action of thought is educational. To arouse or awaken a human being to the necessity for correct thinking and the power to attain it as a habit, is the

object of all true religious and philosophical endeavor. For this reason it is universally recognized that in order to produce good moral results it is necessary that moral teaching should be carried on, and in accordance with this necessity people are taught to guard themselves against evil thoughts, whether audible or silent. Is there not the same necessity to guard against the thoughts of disease? What must then be the conclusion as to the present effort made through the press and elsewhere to instill the belief of disease into children, and others, by means of processes that are called educational?

If it were not obvious that such efforts are basically wrong the results of the last ten years prove them to be so. The advocates of such systems themselves admit that the diseases, which such so-called education was aimed to mitigate or destroy, have increased enormously in that decade, and any one who has observed carefully the influence of thought in human history should have no difficulty in perceiving that such results would necessarily follow such a wrong system; for, if one is to learn about disease and the constantly shifting theories which characterize medical science in order to guard himself against disease, if one is to be forced to build up in his own thought images of disease and germs and microbes and bacilli through the use of charts and experiments in the laboratory and other means in order to be healthy, why would it not be as necessary to familiarize the young, and others with all the vices and sins that characterize depravity, in order that they may thereby gain in virtue and morality?

If it be true, as experience has proved beyond any doubt, that moral education and high ideals tend to improve character, why is it not equally true that the inculcation of true ideas as to the origin, cause and law of being tends to improve health, and that contrary teaching tends to produce disease?

Notwithstanding the somewhat common notion that Christian Scientists oppose sanitation and hygiene, the fact is that they are enthusiastic believers in, and advocates of both. Scrupulous cleanliness in everything is a rule among those who practise Christian Science. They require not only personal cleanliness but clean air, clean food, clean streets, clean water, clean clothing, clean houses, and that everything be clean with which they may be associated or surrounded. And when all this is done, Christian Scientists are still unsatisfied, for Christian Science shows that little has been accomplished in the nature of true hygiene, and very little that is worthy of the name of sanitation, until the human mind itself is cleaned out and kept clean.

Jesus stated this fact more strongly than any one else could, and Christian Science practise has proved conclusively that to the extent that the human mind is emptied of fear, malice, envy, hatred, revenge, evil thinking, evil speaking, and all the beliefs of vice and sin and disease, just to that extent is a true sanitary system being established. And furthermore, Christian Science has proved in innumerable instances that when such a system of hygiene, purely mental, is established, all of the world's hygienic requirements are more than fulfilled, and just in that proportion also is the law of health unmistakably and permanently established, both individually and collectively.

The human body never gets ill because of any inherent capacity to do so. To put it exactly as it is, the human body does not know enough to suffer. Deprived of mind it never suffers. In Science and Health and her other works, Mrs. Eddy has most clearly set forth the fact that it is the human or mortal sense of things that suffers. The mortal mind, so-called, is the sufferer, and she has enabled thousands of people through her books to prove that immortal Mind heals. The objection made to this is often to the effect that you cannot have thought without a thinker, and this contention is based upon the supposition that a person is a thinker by

means of a mind which he contains. Christian Science shows that Mind is infinite, cannot be contained. The divine Mind is the primary and only thinker. When we learn to think with that Mind which Mrs. Eddy in Science and Health declares to be the only Mind of man, then what we call our mind will be so purified and regenerated as to manifest the omnipotence of good in healing the sick as well as in saving the sinner.

Mrs. Eddy's discovery

If a human being uninstructed by Christian Science should hear of a wonderful machine to which he could resort at any time and have it work in his behalf to remove his evil tendencies and any of his diseases, he would be lost in admiration at this extraordinary invention and he would exclaim "What a wonderful scientific discovery!" It goes without saying that no such machine has been discovered or will be, for the simple reason that disease and sins are too deep seated to be reached by any mechanical means. There was something, however, discovered in the year 1866 by a lone New England woman whose thought was clear enough to perceive facts far more scientific than any which had been revealed through the evidence of the senses, and who was strong enough of purpose to set forth these thoughts in such a way that they could be discerned and practised, which was of far greater importance to the human race than any other discovery that has ever been made. Christian Science as given to the world by Mary Baker Eddy is not less scientific because it is not mechanical or material, and it has the advantage of healing the diseases considered incurable, a thing which no material or mechanical thing could do.

One who really apprehends anything of Truth knows that it is mental and that being without beginning or end or any kind of measurement, it must be progressive in our experience. The application of it cannot even be formulated, and so far from being mechanical is it, that the perception of today is but the stepping-stone to the greater understanding of tomorrow. The thought which constitutes the healing process of Christian Science is not less scientific because of its progressive nature; on the contrary, it is more scientific on that account since it is more spontaneous and original. The divine Mind, as we apprehend it more and more, means to us necessarily the very acme of originality. There is no limit to the possibilities of the enlightenment which the study and practise of Christian Science entails. For this reason no formulas are possible in the mental processes of Christian Science healing.

The discoverer and founder of Christian Science brought to light that which was promised when Jesus said "He will send you the Comforter, even the spirit of truth, to abide with you forever." It is this knowledge of the impersonal Savior or Christ Truth, which constitutes both the Science and the Christianity of Christian Science. If Mrs. Eddy had stopped at the discovery of Christian Science, hundreds of thousands of people could not say, as they now do say, that they are grateful for Christian Science. The wonderful thing that she did for mankind was to discern the method of Christian Science, by means of which any person can begin the transforming process which St. Paul speaks of, and by means of which one demonstrates in some degree the true relationship of God and man, by recognizing its present reality and availing himself of its law.

We are apt to think of revelation as something imposed upon man by God, but a more consistent understanding of the word shows that its meaning is best apprehended when one understands its naturalness. That Mary Baker Eddy was inspired when she discovered and set forth the truth of Christian Science cannot be doubted, and yet that inspiration, that revelation, required first receptivity.

It was this readiness, this ceaseless responsiveness to divine Mind which characterized her whole career and made her the leader of the most far-reaching religious and scientific movement that the world has known. It was this same responsiveness which has made Christianity a science resulting in such untold benefit to mankind that thousands of people spontaneously reverence and love the discoverer and founder of Christian Science, Mary Baker Eddy.

NO PAY, NO WATER, IS FULLERTON'S RULE

Fullerton Daily Tribune: Collections for city water will be enforced in strict accordance with the terms of the ordinance, if the city clerk follows the orders given by the trustees at their meeting Monday afternoon. Many of the consumers have been slow about paying at the first of the month, when the money is due. The clerk desires to be as accommodating as the law will permit, but it would be more convenient for him and just as easy for most of the users of water to pay promptly. He asked the trustees for instructions as to handling delinquent

EMPLOYS JANITOR FOR HIGH SCHOOL

Orange News: Bids for the janitor work of the high school buildings and care of the school grounds were opened by the high school trustees last evening. The contract went to C. F. Pine, the present janitor, on a bid of \$2200.

There were five bidders on the work as follows:
H. M. Elliott \$2,300
J. Diteley 2,300
C. F. Pine 2,200
F. Wasser 2,100
L. A. Durler 2,150

The board accepted Mr. Pine's bid, which specified that the new laws were to be started without additional expense, and awarded him the contract. Application for the position of teach-

er of oral expression, elocution and girls' athletics was received from Miss Frances Pixley, and W. H. Jowalter of Redlands applied for the position of coach. Applications for the positions of instructor in science and oral expression are under consideration, and places in the departments of mathematics, music, mechanical drawing and athletics are still open.

Newport-Balboa Stage

CLOGGED NOSTRILS OPEN AT ONCE, HEAD COLDS AND CATARRH VANISH

In One Minute Your Stuffy Nose and Head Clears, Sneezing and Nose Running Cease, Dull Headache Goes.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it. Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrh sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils;

penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous droppings into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.—Advertisement

ANAHEIM IS PLANNING FOR PIONEER WEEK

Street Fair Celebration to Be Held in September—Citrus Station Resolution

Anaheim Gazette: Anaheim is to have a "Pioneer Week" about the first week in September. It is planned to have a street fair with special attractions for the week and to have a general good time. There are two holidays in the week and it is planned to have some unusually big attractions for these days. Anaheim will be celebrating the founding of the Motter Colony and the plans are such that it will be done in a way that will be an honor to the pioneers, who decided this was the garden spot of the Golden State many years ago. This action was proposed by the Board of Trade at the meeting last night and was accepted by the board as one of the events of the year. The advertising scheme advanced by the Grafton Publishing Co. of Los Angeles was up for discussion again last night. Mr. Grafton was present, and with Mr. Wagner of the San Diego Exposition, told of the plans made to advertise California in the eastern states and how Anaheim could get in on the program. After lengthy discussions by several members it was decided to ask the Board of Trustees to levy a tax sufficient to raise \$2000 to be spent in advertising by the Grafton Publishing Co. on their Exposition. It was decided that \$1000 should be raised by the ranchers surrounding this city. This scheme would be placed in the hands of a special committee for consideration. Remarks were made last night showing that the site viewed favorably by the committee was in an undeveloped district so far as citrus growing was concerned. A resolution was offered by J. F. Ahlborn and after being read by him was adopted by the board. When it was announced that the committee on a selection for the location of Citrus Experiment Station had decided to have the station in the San Fernando Valley, the local Board of Trade wired the Board of Regents asking to withhold final decision until a later date. This was June 8 and on June 17 the secretary of the Regents answered by saying the message would have full attention of the committee. Last night J. F. Ahlborn offered the following resolution, which was adopted by the Board of Trade, and

CAPITAL AND RESERVE \$318,875.00

Royal Baking Powder
Absolutely PURE

The most economical of all quick-leavening agents

will be sent to the Board of Regents, Berkeley.

Resolution

To the Board of Regents, University of California, Berkeley, Cal.

Whereas, the sum of \$60,000 was set aside by the last session of the legislature of the state of California for the purpose of purchasing with said sum a suitable site containing not less than 200 acres within the citrus belt of Southern California, said site to be used in establishing thereon an experimental farm for the protection of the orange and walnut industry, and

Whereas, a commission was appointed to carefully select a suitable site of 200 acres for the proposed citrus station and experimental farm, and

Whereas, said honorable commission found upon careful investigation that no suitable site of 200 acres can now be purchased within the territory where the culture of oranges and walnuts has been successfully demonstrated, for the sum of \$60,000, and

Whereas, said honorable commission did not find it advisable to spend the \$60,000 or any part thereof for the 15 different sites offered, but accepted a site of 200 acres within the San Fernando Valley, which site was offered free of charge to said honorable commission, and

Whereas, a great many protests have been voiced by orange growers throughout Southern California against the selection of this site for the proposed experimental farm for the reason that the site is located outside of the demonstrated territory for citrus and walnut culture, which fact is also admitted in a resolution of the honorable city council of the City of Los Angeles, wherein is quoted from the statistics of the Citrus Protective League of California, placing said lands in the San Fernando Valley in the category of "undeveloped citrus lands," and

Whereas, the value of the citrus industry has now reached the vast sum of \$50,000,000 per annum and with the trees now planted, will reach the sum of approximately \$100,000,000 within the next ten years, exclusive of the great walnut industry which amounts to four millions additional, and

Whereas, this proposed experimental farm is for the protection of these industries and further development of same, and

Whereas, the sum of \$60,000 is wholly inadequate to purchase a choice site in the demonstrated territory of the citrus and walnut belt, be it therefore

Resolved, That the honorable Board of Regents be hereby petitioned to delay the acceptance of a site until after the next session of the legislature; be it further

Resolved, That all civic bodies, orange growers and walnut growers

associations be requested to do everything within their power to have the next session of the legislature appropriate a sufficient sum of money for the purpose of purchasing therewith a suitable site in a choice locality of the successfully demonstrated territory of the citrus and walnut district of Southern California.

MILLION DOLLAR COLLEGE FOR SURGEONS-DOCTORS

PHILADELPHIA, June 23.—A million dollar endowment fund and the establishment of a permanent home for the college in Washington, D. C., were decided upon at a meeting of the officers and regents of the American College of Surgeons held here yesterday. More than \$100,000 of the proposed fund was pledged at the meeting.

Fellowships were conferred upon 1632 surgeons from all sections of the country at the second convocation of the college here last night.

Always Lead to Better Health
Serious sicknesses start in disorders of the stomach, liver and kidneys. The best corrective and preventive is Dr. King's New Life Pills. They purify the blood—prevent constipation, keep liver, kidneys and bowels in healthy condition. Give you better health by riding the system of fermenting and gassy foods. Effective and mild. 25c at your druggist. Bucklen's Arnica Salve for all hurts.—Advertisement.

LOS ANGELES PRODUCE MARKET

Receipts of hay have been sufficiently heavy during the past few days to cause several declines. Alfalfa was the principal variety effected, and the market was down to \$9.50 in large quantities, with a range to \$13. Barley hay is coming in heavy and some large shipments of wheat and oat hay are reported as arriving. The crop this year on all hay is considered heavier than for two years past, and the quality is average, if not superior to last year, which was a short year.

On the market of staples there were no surprises. The demand for wheat was only fair and the market dropped to 26 cents, with a heavier influx of northern eggs. A few Eastern eggs are still coming in. Butter was active.

WINNING CARDS IN THE GAME OF LIFE
PAY ENVELOPE
Bank Book

LIFE'S a game, and we are all players in it, to paraphrase Shakespeare. And the best two cards in any hand are illustrated above—first, the PAY ENVELOPE; second, the BANK BOOK. Without the pay envelope there can be no bank book. Without the bank book the pay envelope is robbed of its FULL VALUE. The BANK BOOK is the LOGICAL, SENSIBLE SUPPLEMENT of the PAY ENVELOPE.

5 room cottage to exchange for Anaheim.

1 acre young Valencias, 5 room cottage, close in, for \$2600.

WHAT TO DO WITH CULL ORANGES IS PROBLEM

Subject Will Be Discussed at Anaheim on July Eleventh

Elimination of cull oranges from the markets of Southern California, and the best method of doing so, will be the principal theme discussed at the meeting of the shippers of Orange county at the packing house of the Anaheim Fruit Association on Saturday, July 11.

There are upward of 25 shipping firms in Orange county and it is expected that each will have a representative at the meeting.

Cull oranges now are sold by the packing houses at an insignificant price, perhaps 5 or 10 cents per box. They are bought principally by peddlers and are then hawked about on the streets at 10 cents per bucket. Hucksters from Los Angeles come to Orange county and load their wagons with the culls which are peddled from house to house or perhaps sold to dealers, and thus supply a market that should be open only to first-class fruit. The grower gets nothing for these culls and the shipper less than enough to pay for handling, but they supply the market and prevent the sale of good fruit. It has been apparent for years that something must be done toward protecting the industry from these refuse oranges, and Mr. Sandland's plan is the first move in this direction.

Another evil consequence of culls being sold on the local markets is that tourists and visitors from the East buy and consume the inferior fruit, believing it to be the best the country affords. Here in the heart of the great citrus region where the finest fruit in the world is grown, it is sometimes difficult to get a first class orange. If the culls were eliminated none but good fruit would be sold on our home markets. This would work to the advantage of the grower who now gets nothing for the larger part of the oranges consumed at home.

Another matter which will come under consideration at the meeting will be the disposal of the culls. There is a money value in them and they can be turned into profit by proper handling. Propositions for the establishment of plants to work up the culls have been up at various times for two years past, but nothing definite has ever been accomplished.

Marmalade, orangeade, and other by-products can be extracted from these refuse oranges and give them a commercial value, so the grower will receive something from that portion of the crop.

Coughs and Colds Weaken the System. Continued Coughs, Colds and Bronchial troubles are depressing and weaken the system. Loss of weight and appetite generally follow. Get a 50c bottle of Dr. King's New Discovery today. It will stop your cough. The first dose helps. The best medicine for stubborn coughs, colds and all throat and lung troubles. Mr. O. H. Brown, Muscatine, Ia., writes: "My wife was sick during the hot summer months and I honestly believe Dr. King's New Discovery saved her life." Good for children, 50c and \$1.00 at your Druggist. Advertisement.

\$200 an Acre!

comes nearer the real value than \$150.00 for the land I am advertising for sale at \$125.00. When you consider the quality of the land, location, water, and the general neighborhood. This land is in crop and you don't have to guess as to what it will produce. It should just suit a "sure thing" general farmer—alfalfa, grain, beans, sugar beets, hogs and cows—40 acres, 60 acres or 100 acres fine level land and is now producing big crops of alfalfa, barley and sugar beets. Plenty of water, 1 1/4 miles from good town in Tulare county. You can contract 15 per cent beets at \$5.00 with 30c rise for five years.

This is the best time to buy land. We have had several years of political agitation, the country has been ruined and saved or saved and ruined, according to the viewpoint of the politician.

The tariff was lowered to reduce the high cost of living and ruin the farmer, meaning the price of land has continued to advance and farm products are bringing high prices even in the face of record breaking production and the high cost of living refuses to come down. Confusing, isn't it? Can you beat it? You can if you buy a piece of land now and become a producer of staple food products. Follow that "hunch" that tells you to buy now, before this state begins to feel the stimulating effect of the Exposition, country-wide good crops and easier money. If you are interested in this land or want information about deciduous fruits and nuts grown without irrigation in the Templeton or Paso Robles country, just call me up evening or morning, 644J, or drop me a letter with your address.

J. A. Timmons
2220 North Main.

DELMAR GILLINS

This 13-Year-Old Boy Netted \$484 on an Acre in Potatoes on Milford Valley Land

Two expert Colorado potato growers recently secured much attention from the fact that they succeeded in raising over 800 bushels of fine potatoes from an EXTRA FINE piece of ground. Delmar Gillins, a little 13-year-old boy of Milford Valley, raised 800 bushels of the finest potatoes ever grown west of the Rocky Mountains last year—and he did it alone on a single acre!

For \$30 an acre you can obtain in Milford Valley the identical type of land on which little Delmar Gillins raised 800 bushels of potatoes to the acre—netting \$484. You want this land. "Hard-to-convince" ranchers and investors from the best agricultural sections of the west have read our announcements—discerned the ring of truth in them—wrote for our illustrated booklet—called at our offices—took advantage of the low excursion rates—went to Milford—thoroughly studied conditions—and practically every man Jack of them bought right on the spot.

There is only a comparatively small amount of this \$30 land available—and it is going so fast that our sales-force and clerical department have been overwhelmed. We only wish we had a million acres of this kind of land.

The land will produce better alfalfa crops than Imperial or San Joaquin valley—better dairying results than any section of California—bigger potato crops than Colorado—as large apple yields as Washington or Oregon. You have a perpetual water right with every acre—this means your total water supply for all time to come—you can pay for the water right (\$70 per share) over a period of 12 years, if you desire. The annual cost per acre of maintaining this water system should not exceed 25 to 30 cents per acre. Where else can you get water at such low cost? A wonderful gravity irrigation system has been constructed at tremendous cost. One of the best in the West.

Milford Valley is a land of health—elevation 4971 feet—real mountain air that will make you live long. Milford Valley will be a community of successes—settled entirely by well-to-do people. The land is sold on a cash basis. The "homesteader class" cannot share in this project. When you arrive in Milford Valley you'll find wealthy farmers from Imperial Valley, Riverside and Orange counties, Ventura, Whittier, Santa Paula, and other prosperous districts—men who quickly recognized an incomparable, money-making farmland opportunity—land at \$30 an acre that should command \$250 to \$300 when under cultivation and in alfalfa. Don't confuse this with ordinary land, for it is not—it is extraordinary land.

Mr. Business Man: Here is the opportunity for your son—the gateway to his success and independence.

Mr. Investor: You can buy Milford Valley land today at only a fraction of its real value. And remember, that earning capacity farm land is the safest security you can hold.

Special home-seekers' excursion rates from Los Angeles every Wednesday and Saturday morning. Write for new booklet giving all facts and figures about the best land opportunity in the West.

FARMERS' 'YEAR BOOK' TO BE DISTRIBUTED

The Department of Agriculture at Washington has issued a "Year Book" for 1913. It is of great interest to all engaged in farming, truck growing or gardening, and to those raising hogs, cattle or poultry. It also has much to say of foods and health laws. It is a volume of 540 pages and many illustrations. A limited number is allotted to each member of Congress. Any one living in the Tenth Congressional district of California can obtain this "Year Book" until the allotment is exhausted by writing to Congressman Wm. D. Stephens, Washington, D. C.

Hot Weather Tonic and Health Builder
Are you run down—Nervous—Tired? Is everything you do an effort? You are not lazy—you are sick! Your stomach, liver, kidneys, and whole system need a tonic. A Tonic and Health Builder to drive out the waste matter—build you up and renew your strength. Nothing better than Electric Bitters. Start today. Mrs. James Duncan, Haynesville, Mo., writes: "Completely cured me after several doctors gave me up." 50c and \$1.00 at your Druggist.

Y. M. C. A. BOYS TO CAMP AT CHIEF OURAY'S CAMP

GRANBY, Colo., June 23.—Seventy-five boys went into camp today on the site of the old camping ground of the old Indian Chief Ouray, four miles from here. They constitute the first camping party sent out by the Denver Y. M. C. A. for the summer. The boys will remain at "Camp Chief Ouray" until July 6. On July 7 the second camp will be established at the same place, extending until July 20.

REDLANDS CITRUS SHIPMENTS
REDLANDS, June 23.—Redlands orange shipments the past week totaled 78 cars, bringing the season's total to 3822 cars. Shipments are being held back for better market conditions. Redlands having only Valencia left to market and they will remain on the trees several months if necessary.

McElree for windshield glass.

R. R. EMPLOYEES RIDE ON PASSES AT OWN RISK

WASHINGTON, June 23.—Railroads are not liable for injury to interstate employees or members of their families riding on passes which contain stipulations that the passenger assumes all risk while being so transported. The Supreme Court yesterday so decided, and held that a pass is not to be regarded as part of the compensation for which the employee works, but is in reality free and subject to any conditions the railroad may impose.

JUICE PRESERVING PROCESS IS INVENTED
REDLANDS, June 23.—H. P. D. Kingsbury of the Kingsbury Fruits, Inc., has invented a process of preserving citrus fruit juices without the use of any preservatives and tests have been made of lemon, orange and grapefruit juice bottled for a year, that is as fresh in taste as that taken from the fruit today. Laboratory tests show it in excellent condition, with no traces of decay.

CHILE PEPPER ACREAGE IS LARGE

Garden Grove's Famous Industry Has Good Representation This Year

GARDEN GROVE, June 23.—Most all of the chile transplanting is finished in this section. A very large acreage has been put out this year. This gives ample opportunity to a large number of men, as the chiles require constant work, almost from the time they are planted until the harvest ends, about December.

New Houses
The new Powell house one mile east of town is almost finished and they expect to move into it next week.

The new Chilson house is nearly finished, the plastering being done. These two houses will be a credit to the section in which they are built. The Chilson house is located three-quarters of a mile east and one-quarter south of Ocean avenue.

Rev. Anderson is the new pastor appointed for the Free Methodist church, and Rev. Roll will go to Riverside.

N. Carmichael, the pastor of the Latter Day Saints church, filled the pulpit in Los Angeles last Sunday. He will be the speaker here next Sunday, after the Children's Day exercises. The Santa Ana membership will meet next Sunday. Garden Grove branch next.

The two sons of Mr. and Mrs. Tubbs motored over from San Pedro on Sunday and from here to the Orange County Park, taking their parents with them.

Mrs. Miller of Huntington Park was a visitor last week at the home of Mrs. D. E. Hobbs.

The Baptist Sunday school will picnic at the Orange County Park on Friday of this week. They will go on the auto truck and leave the church at 8 o'clock.

A new baby boy came to the home of Mr. and Mrs. S. Horowitz on June 16.

Mr. and Mrs. W. A. McDowell of Los Angeles and Mr. and Mrs. F. W. Burton and family, of Olive, were entertained at the home of Mr. and Mrs. N. Carmichael on Monday evening.

C. L. Mosher and daughter Helen and Mr. Hotchkiss motored down from Los Angeles today to the home of Mr. and Mrs. Geo. Barnes, where they are being entertained.

Mr. and Mrs. J. Henry were surprised this morning by having their daughter, Mrs. Hand, and two children, with her father-in-law and brother-in-law, walk in on them. They came from Fresno yesterday, arriving at Garden Grove last evening about 11 o'clock. They remained at the hotel all night and walked over to the ranch home east of town today.

Mrs. Simon is being entertained at the home of Miss Carrie Kimball today.

H. C. Powell has just returned from a two weeks' business trip to San Luis Obispo county.

Chas. Ready and Alice Ready of Ventura, brother and sister of Mrs. Will Stuck, visited at the Stuck home.

Miss Pearl Nimmo of Orange visited with her mother at this place on Sunday.

Mrs. W. L. Russell has just returned from a visit with friends at Alhambra and Los Angeles.

The ladies of the Baptist Home Missionary Society will meet at the home of Mrs. J. Q. Johnson at Orange on Wednesday of this week.

Mr. and Mrs. H. C. Powell were business visitors at Los Angeles on Monday.

Mr. and Mrs. Will Stuck motored to San Diego last week with Chas. Ready and Miss Alice Ready returning on Thursday.

The Mennonite congregation had a picnic at the Orange County Park today.

NOTICE
Notice is hereby given that sealed bids will be received by the Board of Supervisors of the County of Orange up to 11 o'clock a. m., July 8th, 1914, and then publicly opened, for supplying the County Hospital with the necessary furniture and fixtures as are required in the office, operating room, laboratories, bedrooms, wards, dining room, kitchen, etc., as per specifications on file therefore in the County Clerk's office.

That all furniture, fixtures and supplies shall be installed at the County Hospital free from flaws, scratches, etc.

All bidders shall be required to furnish cuts, designs or catalogue numbers of such articles, and samples wherever it is possible to do so.

All bids must be itemized to each article of furniture, fixture and instrument, and submit separate prices on the same, and prices on the whole.

A certified check in the sum of ten (10%) per cent of each bid as a guarantee of good faith, that the successful bidder will enter into a contract with the Board of Supervisors to perform all things specified in the bid.

The Board of Supervisors reserves the right to reject any or all bids received, and they also reserve the right to accept any bid submitted in whole or in part of said bid.

By order of the Board of Supervisors of the County of Orange.
Dated June 16, 1914.
W. B. WILLIAMS,
County Clerk.

Does it pay to pay cash?

- heirlooms.
- silverware, jewels may be stolen or destroyed by fire if left in your home.
- place them—for safety's sake—in a strong safe deposit box in the vaults of this bank.
- \$2.00 annually is a small amount to spend for the purpose of having them secure.

Farmers & Merchants National Bank OF SANTA ANA.

Upson Board

is the best wall board. Let us prove it to you. See us for mill work, cement, roofing and everything in lumber.
